A Complete Index to

METALS AND ALLOYS

Volumes 19 and 20

January-December 1944, inclusive

This is a complete index of the contents of METALS AND ALLOYS for volumes 19 and 20—the January to December 1944 issues, inclusive. It covers not only the feature articles and the digests, but all the departments (Production Front, Editorial Comment, Shop Notes, News, Books, and Trends) as well. All items are indexed not only under their titles or specific subjects, but are also grouped and indexed under the major broad subdivisions of the magazine's field.

The department in which the item appears is indicated in each entry by words as "(digest)," "(news)," etc., following the subject or author. Where a department is not thus indicated, the indexed item was a feature article. The reference numeration indicates, first, the page number, which is continuous throughout each volume; second, the volume number; and third, the issue number, showing the month in which the item appeared. Thus, the reference number 900:19-4 indicates that the indexed article is to be found on page 900 of volume 19 (Jan.-June 1944) in the April issue, and the reference 964:20-4 indicates the article on page 964 of volume 20 (July-Dec. 1944) in the October issue.

SUBJECT AND TITLE INDEX

Abrasives:
Cold-Conditioning of. Payne, H. Seman (digest)—146:20-1
Wheel dresser, versatile (news)—1574:19-6
Acid-resisting cast iron, Hurst, J. E. (digest)—1232:19-5
Acid tank, plastic, linings for (news)—225:20-1
Adhesives for metals and nonmetals, Rose, Kenneth—959:20-4
Aging sensitivity of steels, Fry, A., and Kirschfeld, L. (digest)—196:19-1
Air:
Enriched, in blast furnace, Lennings, W. (digest)—1372:20-5
Removing chips by, Emberly, John (shop notes)—382:20-2
Air blaster for metal shops (news)—724:19-3
Air-cooled cylinders, production of, Taft, T. H. (digest)—1184:19-5

Aircraft and engines:
Aluminum parts, forming rolls for (news)—226:20-1
Bearings and other products, making, Geschelin, J. (digest)—934:19-4
Boilers, arc welding, Lebert, H. A., and Willoughby S. B. (digest)—416:20-2
Bore or rivetscope (news)—1719:20-6
Chief focus of war production (production front)—1331:19-6
Deburring parts with pebbles, Faught, Millard C. (shop notes)—893:19-4
Die casting for motors, Doll, Howard F. (digest)—440:20-2
Electrode, high tensile (news)—1719:20-6
Finishes, engine and metal, Coler, Myron A. (book review)—218:19-1
Finishing, quality in, Caldwell, W. D. (digest)—444:19-2
Flash welding in aircraft, Smith, C. B. (digest)—184:19-1
Forming dies, making zinc alloy, Stedman, Gerald E.—83:20-1
German aircraft design (digest)—448:19-2
Instruments, soldering, Schiller, J. J. (digest)—440:19-2
Landing mats, steel rust (production front)—5:19-2
Lightening hole deburrer, Mannette, Russ, and Trezise, Walter (shop notes)—387:19-2
Lithium furnace in plant, Bowen, Carl (shop notes)—1644:20-6
Magnesium gasoline tanks (trends)—530:19-2
Manifolds, welding, Wolfe, K. J. B. (digest)—948:19-4
Metallurgical problems in, Krivobok, V. N. (digest)—176:20-1
Plywood planes (production front)—536:19-3
Propellers (trends)—530:19-2

Aircraft and engines (Cont.):
